

**Release Notes**  
**Managed Access Gateway**

**Version 7.8.3**

**Final Edition (Jan 28<sup>th</sup>, 2025)**

This edition applies to the current release of Managed Access Gateway (MAG) and to all subsequent releases and modifications until otherwise indicated in new editions.

## Features and Enhancements

Items	Description	Case ID
1.	The First Name, Last Name, Email, Phone Number, User Status, Cert Profile Type, and Cert Create Time fields are now optional columns when generating an FIS Daily Certificate Report.	MAG-7111
2.	The External Org Id field has been added to the Daily Organization Report.	MAG-8654
3.	Answering security questions will no longer be an allowed option for resetting a password.	MAG-8911
4.	The new role management UI has been enabled for our Exostar Portal Admins (EPAs).	MAG-8880
5.	You can now effortlessly navigate back to the login screen from the updated logout page.	MAG-9812

## Closed Issues / Defects addressed in this release

Items	Description	Case ID
1.	We have resolved the interface error where some of the applications the organization is subscribed to are not displayed when an org admin wants to bulk delete applications.	MAG-9849
2.	We have resolved the issue where subscription requests that originate from the legacy self-registration process skip the SP admin approval step.	MAG-9602
3.	We have resolved the issue where Exostar Portal Admins are unable to revoke a user's FIS certificates.	MAG-9608
4	Exostar Portal Admins will now be able to revoke a user's FIS certificate that is stuck in the in-process status.	MAG-7596
